

A universal dry ridge and hip system for concrete and clay.

The Klobber Dry Ridge Kit is a universal ventilating dry ridge and hip system suitable for ventilating most concrete and clay ridge and hip tiles. Available with a black ridge roll, it comes in a practical all-in-one kit.

Typical section

Ridge detail with half round ridge tiles

Features and benefits

- Mortar free, making it quick to install.
- Universal ridge seal.
- Ventilated ridge roll with stainless steel fixings.

Area of application

- Suits most clay and concrete ridge tiles.
- Can be used with 300mm clay ridge tiles when used with the clay conversion kit.*
- Suitable for flat and low profile tiles as defined by BS 8612.
- Can be used on hips, however trays and clips are not included (See table below).
- Suitable for new build and refurbishment.

Related products

- Flashing Glue PACCGGL*
- Ridge End Caps KR9772/KR9773.

Approvals and certifications

- Complies with BS 5250 for ventilation, BS 8612 for performance and BS 5534 for mechanical fixing.
- All products supplied by Klobber Ltd are covered by a 10 year guarantee against manufacturing defect.

* Recommended to help fix the butyl strip in damp conditions.
